

Target Audience

Immunization specialists in local health departments, private provider offices, hospitals, schools, colleges, universities and child care centers

Conference Description

This continuing education conference is designed to enhance the collaborative immunization efforts of public and private healthcare providers within the evolving immunization delivery system. The conference will provide an opportunity to address new immunization recommendations and changes in vaccine administration and demonstrate proven strategies to increase immunization rates.

Learning Objectives

At the end of this educational activity, participants will be able to:

- Address new immunization recommendations and changes in vaccine administration.
- Demonstrate proven strategies to increase immunization rates.
- Describe efficient and effective methods of vaccine assurance and accountability.
