MEMORANDUM

TO: Child Care Operator/Head Start Director

FROM: Beth Rowe-West, RN, BSN, Head Immunization Branch

SUBJECT: Annual Child Care Immunization Report

October 17, 2011

North Carolina Immunization Law (G.S. 130A-155(c)) requires all licensed child care facilities to submit an annual immunization report. The purpose of this report is to ensure that all children enrolled in your programs are protected against vaccine-preventable diseases and to determine the number of children who meet state immunization requirements.

IMPORTANT: Please submit your completed Annual Child Care Immunization Report as soon as possible. It must be postmarked no later than December 15, 2011. The date has been extended due to getting the materials out later this year. Mail the white copy of the report to the Immunization Branch (return envelope is enclosed) and the yellow copy to your local health department (see enclosed Local Health Department directory for the address).

- If you have a system for tracking immunizations at your center and can provide a computer printout that includes the same information as listed on this form, you can submit that printout instead of completing this form. The printout must be signed by the Operator. The printout must be mailed to the Immunization Branch and your local health department. Please do not submit children's individual shot records, the printout must be a summary of information like the form provided.
- Two recommended vaccines are included on the report: PCV (Pneumococcal Conjugate or Prevnar) and Hepatitis A. These vaccines are recommended, but not required for children. If you have documentation that children in your center have these vaccines, please include this in the report. If they have not had these vaccines, you can leave that section blank and they are not required to have them to be in child care in North Carolina.

Here are several points to assist you in completing your Annual Child Care Report:
- Review the back of the report for instructions on completing the report.
- You must complete the front sheet with the name of your child care, county, etc.
- Do not use reports or diskettes from previous years.
- Fill out all requested information completely (i.e., use numbers, not yes's to document a child's immunizations.)
- Do not send in copies of the children's medical reports or immunization records.
- Do not report school age children (K-12).
- Remember to mail the yellow copy to your local health department and keep the pink copy for yourself.

If you have Microsoft Word software you may download a copy from our website at http://www.immunize.nc.gov.

Thank you for ensuring that children in your care are properly immunized. If you have any questions or need additional information, please call (919) 707-5550.
